

Marchington Parish Council
Small Grant Scheme
1st August to 31st October Annually

Each year Marchington Parish Council grants a small amount of its precepted budget received from East Staffordshire Borough Council to enable it to help local groups and organisations by giving grants for help with maintenance costs.

It is at the Parish Councils discretion as to the level of this fund. The Parish Council retains the right to fund an application in full or part as they see fit. The grant fund is a finite resource and each year, each application is viewed anew by councillors so no historical precedent should be expected.
